Storyboard: Is France becoming more dangerous?

Alexis PERRIN – Data Analysis & Visualization 2026
Audience: citizens and local elected officials
Data: SSMSI – Ministère de l'Intérieur (data.gouv.fr)

The story step by step

Step	Question	What we show	Message
0. Intro	Why does it matter?	Title, context, questions	Let's look at the official figures
1. Data quality	Can we trust the data?	Missing values, checks, limits	Clean data, only recorded facts
2. Overview	How does crime evolve?	KPIs + line chart per year	Drop in 2020, then back up
3. Where?	Which departments?	Map, top / bottom 10	Big differences between departments
4. What?	Which crimes rise or fall?	Change (%) by type of crime	Violence and fraud rise, thefts fall
5. Conclusions	What to remember?	Insights, limits, next steps	It depends on the type of crime
